### BLOOMING ALGAE

The increased water testing of Lake Victoria at Princes Park, Maryborough continues to show unsafe levels of blue-green algae, following drier than usual weather and low water levels.

Direct contact with affected water can cause skin rashes, eye, ear and nose irritation and if swallowed, vomiting or gastro. Seek medical or veterinary advice if you or your pets show symptoms.

Lake water should not be used for drinking, cooking or washing – boiling does not make water safe. Food from the Lake should not be eaten.

Please note that sprinkler systems in the park do not use Lake water. We'll keep the community updated.

For further information, or to report algae-related issues, contact our Environmental Health Team on 5461 0610.

### BIN SURVEY

The Victorian Government is standardising household waste and recycling services across the state.

This means that all Victorian council waste services will move to a four-stream system by July 2027.

To help us prepare for the transition, we're inviting residents to share their feedback on waste. Those who complete the survey enter the draw to win 1 of 125 Transfer Station Golden Vouchers.

This will help us roll out the service that best meets the needs of our community.

Meet with us at Talbot Farmers Market (Sundays: 18 May and 15 June) and Dunolly Country Market (Sundays: 27 April and 22 June) to discuss what you think is the best waste system for our Shire, or complete our online survey at:
